Product

100% solids, two component, hybrid polyurea lining..

QWIK LINER® Spray-On bedliner is industry proven to provide your truck bed with anti skid, permanent abrasion-resistant protection. The unique flexible, textured, non-porous lining is easy to clean and will not warp, crack or peel. QWIK LINER® provides a protective surface barrier for trailers, vans, trucks, boats, floors, and virtually any area needing a tough, permanent protection.

QWIK LINER ADVANTAGES..

PREVENT RUST

Unlike drop-in liners that promote payload slippage, and allow moisture and dirt to get trapped underneath causing rust and corrosion, **QWIK LINER®** is a permanently bonded protective lining between your vehicle and the outside environment..

COLORS

With 8 standard colors available and a variety of 100's of more colors, the **QWIK LINER®** system will cater to a variety of customer needs and will open doors for endless applications. i

Will NOT WARP, CRACK OR PEEL

The **QWIK LINER®** is extremely flexible and tough when permanently bonded to a properly prepared surface.

ENVIRONMENTALLY FRIENDLY

The 100 % solid, two component, **hybrid polyurea** does not contain any solvent or VOC's.

HIGH UV STABILITY

QWIK LINER® is one of the highest UV protection bedliner available in the industry.
